Operations

[REDACTED] ASRP)

This regulation states the policy and outlines procedures for participating in ASRP flights by persons other than those assigned to ASRP units or identified as fully qualified ESC officers (rated or nonrated, crew or noncrew) and enlisted personnel (AFR 35-13 and ESCR 55-7) essential to performing the ESC ASRP missions. It applies to all ESC organizations associated with the ASRP.

1. Policy.

[REDACTED] However, this command does authorize military and civilian personnel, other than qualified ESC crewmembers, to participate in ASRP flights within the ESC operating area when participation is considered essential to the effectiveness or development of the ESC ASRP but only under the procedures outlined in this regulation. This regulation is not intended to affect the operating command's selection of personnel to operate the aircraft nor to limit the activities of those personnel who occupy SI billets of the aircraft's operating units.

2. Responsibility. HQ ESC/DO is responsible for authorizing ESC military and civilian personnel to participate in ASRP missions and must ensure that conditions and provisions under which approval is granted are followed. HQ ESC will consider the extent of each person's knowledge and previous exposure to sensitive information before authorizing participation in an ASRP mission.

3. Criterions. Only those persons who meet the following criterions are authorized to participate in ASRP flights. They must have:

- a. A valid need-to-know which has been verified by the requesting organization and has been confirmed by HQ ESC/DO.
- b. A security clearance and indoctrination corresponding to the classification of the operation.
- c. Completed the medical-examination requirements of AFR 160-43 for flight personnel.
- d. Completed the pressure-chamber requirements of AFR 50-27.
- e. Completed Special Survival Training Course S-V83-A or have a waiver of the requirements.
- f. Completed all survival courses required under AFR 50-3 or have a waiver of the requirements.
- g. Completed all SACR 50-24 requirements for Life Support Training (LST) or have a waiver of the requirements.
- h. For non-ESC personnel or other personnel who have not met the other criterions of this paragraph, the approval of the Commander, ESC, and special security officer SRC/DOR.

4. Procedures:

a. How to Process Requests. Send requests to ESC/DO for processing. Allow enough time (normally 30 days) to permit full researching and staff coordination. In each request, include:

- (1) The name, rank, grade or position (as appropriate), and SSAN of each applicant for whom the request is made.
- (2) The branch of service or organization which each applicant represents.

Supersedes USAFSSR 55-16, 4 February 1977. (See signature page for summary of changes.)

Distribution: S; X; AUL/LDEA (1); AFISC/DAP (1); ESE/CC (1); ESP/CC (1)

(3) A statement verifying each applicant's need-to-know, purpose for which the flight is required, and clearance status.

(4) A statement regarding each applicant's flight status (rated, nonrated, crewmember, etcetera).

(5) A statement that each applicant has or has not completed physiological training as prescribed by AFR 50-27 and has a current AF Form 702, Individual Physiological Training Record.

(6) A statement that each applicant has or has not satisfactorily completed a flight physical examination as prescribed by AFR 160-43 and has a current AF Form 1042, Medical Recommendation for Flying or Special Operational Duty.

(7) A statement that each applicant is or is not qualified under the S-V83-A program. Also, identify the unit holding the applicant's DD Form 1833, Personal Authenticator Card, or request a waiver of S-V83-A requirements.

(8) A statement that each applicant has or has not completed all survival training as prescribed in AFR 50-3 or request a waiver of the requirements.

(9) The time that the applicant will be participating in ASRP missions.

b. ESC/DOR Actions. Upon receiving a request for non-ESC personnel or personnel not meeting all requirements of paragraph 3, this regulation, to participate in an ASRP mission, ESC/DOR will:

(1) Check each request to determine which of the requirements of paragraph 3, this regulation, have or have not been met.

(2) Request a waiver of requirements not met as follows. Waiver of:

(a) AFR 50-3 requirements pertaining to S-V80-A, General Survival School; S-V83-A, Special Survival School; and S-V86-A, Water Survival School (HQ USAF/XOORZ/MPPTF).

(b) AFR 160-43 and AFR 50-27 requirements pertaining to Flight Physical-Examination and Physiological Training (HQ USAF/SGPA).

(c) SACR 50-24 requirements pertaining to LST (HQ SAC/DO8T).

(3) Send a message to the aircraft operating command (SAC SRC/DCR) listing the name of each applicant in an ASRP mission.

(4) Send a letter or message authorizing the flight to the ESC and operating command's units concerned when all requirements have been met or waived.

c. Actions Required by Personnel Receiving Approval. Persons who receive approval to participate in ASRP flight will:

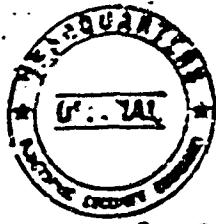

(1) Follow their original approved flight schedule as closely as possible.

(2) Coordinate required changes to assigned schedules with HQ ESC/DOR.

(3) Before participating in an ASRP mission, report in person to HQ ESC/DOR or to the appropriate ESC unit, as directed by HQ ESC/DO, to confirm compliance with the preceding requirements and to receive any necessary briefings.

5. Forms. AF 702 and 1042 and DD 1833.

FOR THE COMMANDER

WILLIAM R. CARROLL, Lt Col USAF
Director of Administration

SUMMARY OF CHANGES

Adds requirement for processing requests for waivers and generally updates publication.
